LEUNG Ching Ting

Third Year Chemical Engineering Student in

Department of Chemical and Biological Engineering

The Hong Kong University of Science and Technology

To Whom It May Concern,

The Department of Chemical and Biological, Hong Kong University of Science and Technology is writing to provide an official record of the academic performance of LEUNG Ching Ting, a current Year 3 student with ongoing Bachelor Degree of Chemical Engineering (Research Option) with an extended major in Artificial Intelligence.

Major Cumulative Grade Average (MCGA):

It is my pleasure to confirm that LEUNG Ching Ting has been maintaining an exceptional MCGA of 4 on a 4.3 scale over the course of the academic year. This outstanding GPA places LEUNG Ching Ting among the top 1% of students in our department.

Coursework and Achievements:

LEUNG Ching Ting's academic success is not only reflected in impressive MCGA, but also in exceptional performance and contributions across her coursework and other academic pursuits. She has demonstrated outstanding academic achievements through high grades of A+ in key courses such as Data Science in Molecular Engineering and Process Control and Dynamics, as well as A in Advanced Separation Processes at the postgraduate level. She has consistently performed well, earning a place on the Dean's List for two consecutive semesters in her penultimate year with impressive TGAs of 3.734 and 3.967. Additionally, she has excelled as a diligent researcher, successfully completing her investigation project with distinction.
